Discovering Cambo
There are many paths you can follow throughout the Estate. Here are two favourite routes to get you started . . .
Woodland Walk
This walk follows the route of Cambo Burn through the woodland towards Cambo Sands, passing the decorative iron bridges, which date from the 1800s, along the way. Xxkm
Estate Walk
This route follows the perimeter of Cambo Estate, taking you past Cambo Farm and close to the village of Kingsbarns before skirting the coast along Kingsbarns Golf Links. Make your way back to The Stables Visitor Centre by joining the Woodland Walk. Xxkm
Please respect the private properties you come across on the estate.
1 The Stables Visitor Centre
Dating from 1760, the Stables are home to the Visitor Centre. Start your visit here and explore the exhibition, relax in the cafe and find out how you can get involved.
The Stables Visitor Centre is open daily 10am – 5pm.
2 Walled Garden
Once a productive kitchen garden, today the Walled Garden is filled with experimental beds growing plants from all over the world.
The Walled Garden is next to The Stables Visitor Centre. Turn over for a map of the Walled Garden.
3 Cambo Gas Works
In the woodlands is a small gas works that once produced gas to light Cambo House and Stables. It was probably built for the new house between 1879-84.
You can view the Gas Works from outside.
4 Curling Pond Hut
The tennis court was once a curling rink, dating from the late 1800s. The rink's Curling Hut still survives with a small fireplace and boxes for curling stones.
You can enter the Curling Pond Hut.
5 Dairy
The Dairy was designed as a Picturesque feature to be admired from Cambo House. It contains eight stalls similar to those in the Stables.
You can view the Dairy from outside.
6 Dovecote
There has been a dovecote at Cambo since 1759. The 9th Earl of Kellie added castellated parapets to the Dovecote as part of his designed landscape in the early 1800s.
You can view the Dovecote from outside.
7 Mausoleum
The Mausoleum was built in 1821 as the burial chamber for the Erskine family under the direction of the 9th Earl of Kellie.
You can view the Mausoleum from the path.
8 East Newhall Farm
East Newhall was one of two 'Improvement' farms on Cambo Estate developed in the 1790s. Today it is home to Kingsbarns Distillery and Visitor Centre.
The Distillery is open to the public.

About the Walks

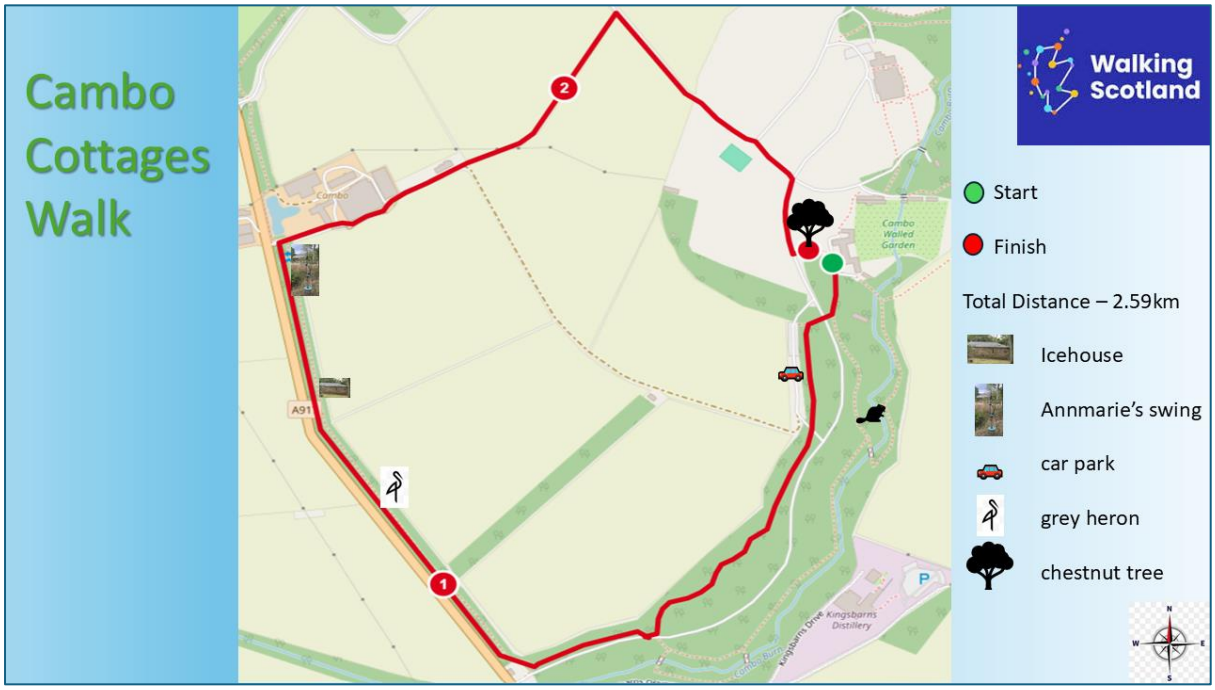

This is one of a number of walks around the Cambo Estate and Gardens.

These walks have been developed by the Monday Walking Group which meets at the Cambo Estate each Monday morning at 9:30, weather permitting.

The walks take approximately one hour and are between 2 and 3 kilometres in length.

The group walks in association with Walking Scotland, a charity whose purpose is to encourage walking by providing a framework for organised walking groups. The walk leaders have received appropriate training to ensure the walks are suitable and safe for all. Many of the walks are also suitable for people who walk with wheeled devices.

The Cambo Estate is managed by the Cambo Heritage Trust, and operated to maintain the historic house , grounds and associated buildings and gardens in environmentally sustainable format for all to enjoy.

Woodland Circular Walk

General Description:

This walk takes you from the Stables Visitor Centre heading south past the car park and along a flat woodland path towards the entrance to the estate. Crossing the main driveway, we head down a sloping path towards the Cambo Burn. Keeping the burn on our right we follow the path as it meanders through the Cambo Den before crossing over a bridge then taking the left fork and continuing with the burn on our left.

As you walk along this section keep a lookout for the badger sett on the opposite bank of the burn. Just before the next bridge, we take a sharp right, up a fairly steep incline, through a gate bringing us to the edge of the woodland.

We follow the path along the side of the field, past the compost bins, and re-enter the woodland where we continue down the path until we reach a fence with a gate, through which we pass instead of remaining on the path following the burn.

The other side of the gate leads us to a bridge over the burn where we turn left in the direction of the stables. The walk ends after we skirt round the north of the Walled Garden, through the Prairie Garden and back around to the Visitor Centre.

Pathway Conditions:

The gravel path is clear and wide enough for a wheeled walking aid. There are some inclines, both down and up, mainly on the return section, where extra care is necessary, particularly on the downward inclines.

Weather Considerations:

In winter, the path may be slippery in places during frosty weather but will remain mostly passable.

Interesting Features:

At the beginning of the walk, the features are typical woodland, with some interesting rock formations and tree root systems visible on the northbound section, particularly through the Cambo Den.

Cambo Health Walks

Walking Scotland

Walker Leader Agreement

* We will always try to make the walk safe for you by doing a risk assessment
* We will describe the route and any hazards to you before we start walking and will let you decide how far you want to walk
* We will try to make sure that all staff and volunteers have done the Walking Scotland Walk Leader training course
* We will try to find a walk that is suitable for everyone

Walking Scotland use both terms walking and wheeling as it's more inclusive. Both words represent the action of moving at a pedestrian's pace, whether or not someone is unaided or using some kind of wheeled mobility aid.

Walker Agreement

* I will only do the walk if I am fit enough. If I have any concerns about this I will talk to a Walk Leader or a health professional
* I will tell a Walk Leader if I feel unwell while out on a walk
* I will let a Walk Leader know if I am leaving the walk before it has ended
* It is up to me to make sure I can do the Health Walk safely
* I understand that I come on a Health Walk at my own risk

Walking Scotland use both terms walking and wheeling as it's more inclusive. Both words represent the action of moving at a pedestrian's pace, whether or not someone is unaided or using some kind of wheeled mobility aid.
